DETAILED ACTION

1. Applicant's amendments to the specification and claims filed 10 November 2003 is acknowledged. Claims 1-31 are canceled. Applicant's addition of new claims 32-41 is acknowledged.
2. Applicant's amendments to the specification and claims filed 30 September 2004 is acknowledged. Applicant's amendment of claims 32, 35 and 38 is acknowledged.
3. Claims 32-41 are under examination.

Election/Restrictions

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 32-37, 40-41, drawn to a polynucleotide, vector, cell and method of making protein, classified in class 435, subclass 69.1.
 - II. Claims 38, drawn to a diagnostic kit comprising antibodies, classified in class 530, subclass 387.1.
 - III. Claim 39, drawn to a diagnostic kit comprising polynucleotides, classified in class 536, subclass 23.1.
5. The inventions are distinct, each from the other because of the following reasons:

Each of inventions I through III are directed to patentably distinct and/or independent biomolecules. Absent factual statement/evidence to the contrary, each of the different biomolecules are considered distinct and/or independent, one from the other on the basis of physical, chemical and biological properties and function(s).

Art Unit: 1653

6. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II-III, restriction for examination purposes as indicated is proper.

7. During a telephone conversation with Michael McCarthy on October 25, 2004 a provisional election was made with traverse to prosecute the invention of Group I, claims 32-37, 40-41. Affirmation of this election must be made by applicant in replying to this Office action. Claims 38 and 39 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

EXAMINER'S AMENDMENT

8. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael McCarthy on October 25, 2004.

9. The application has been amended as follows:

Claims 38 and 39 are cancelled.

Art Unit: 1653

Reasons for Allowance

10. The following is an examiner's statement of reasons for allowance: A standard search did not produce any prior art that suggests or teaches the claimed invention. Thus, the claimed invention is novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

11. Claims 32-37, 40-41 are allowed.
